INTRODUCTION

Prostitute: the demonstration of having intercourse in return for money. Prostitution is the business or practice of participating in sexual relations or sex acts in return for pay tutor some other advantage. Prostitution is at times depicted as business sex. Ancient India gives the highlight of Sacred Prostitution or Religious Prostitution, sexual intercourse or other sexual activity performed in the context of religious worship (Devadasi) and where payment for services was not involved. In India, the Vedas, the earliest literature had references to Prostitution. Rigveda mentions the word sadbarani, which refers to a woman who offers sex for payment.

Kautilya “Women who lived by their beauty (rupajivas) could, however, entertain men as independent practitioners”, gives an account of Prostitution.

In India, prostitution (the trading of sexual administrations for money) is lawful, however various related exercises, incorporating requesting in a public spot, kerb slithering, claiming or dealing with a house of ill-repute, prostitution in a hotel, child prostitution, are wrongdoings. Prostitution is legitimate just whenever done in the private living arrangement of a prostitute or others. Yet, numerous houses of ill-repute unlawfully work in numerous Indian urban areas.

MEANING OF PROSTITUTION

The word Prostitute is derived from the Latin word PROSTITUTA. The verb is a composition of "Pro" which means "upfront" or "forward" and "Situere", means "to offer up for sale".

Why Prostitution?

- Economic difficulties
- Peer Pressure
- Lack of Parental Care
- Deceit by criminals

Prostitution legal in India

As far as law is concerned it is not illegal in India.

❖ Law related provision

The most essential law with respect to the sex workers' status The Immoral Traffic (Suppression) Act was passed in 1956. It is additionally alluded to as SITA. This law expresses that prostitutes are permitted to work in private however they can't do their business in the open. Indian laws anyway don't respect sex in return of money as prostitution. According to laws, a person can be arrested if caught in sexual activity in public. Various segments of the IPC are utilized to bring charges of assumed criminal acts like public obscenity against sex laborers. They can likewise be blamed for being a public annoyance.

to ten years, and shall be liable to fine. 2[Explanation I.—When a female under the age of eighteen years is sold, let for hire, or otherwise disposed of to a prostitute or to any person who keeps or manages a brothel, the person so disposing of such female shall, until the contrary is proved, be presumed to have disposed of her with the intent that she shall be used for the purpose of prostitution. Explanation II.—For the purposes of this section “illicit intercourse” means sexual intercourse between persons not united by marriage or by any union or tie which, though not amounting to a marriage, is recognised by the personal law or custom of the community to which they belong or, where they belong to different communities, of both such communities, as constituting between them a quasi-marital relation.]” (Mishra) (Ranchhoddas)

Section 373 of the Indian Penal Code. Buying minor for purposes of Prostitution, etc”.

“Whoever buys, hires or otherwise obtains possession of any 1[person under the age of eighteen years with the intent that such person shall at any age be employed or used for the purpose of prostitution or illicit intercourse with any person or for any unlawful and immoral purpose, of knowing it to be likely that such person will at any age be] employed or used for any purpose, shall be punished with imprisonment of either description for a term which may extend to ten years, and shall also be liable to fine. 2[Explanation I.—Any prostitute or any person keeping or managing a brothel, who buys, hires or otherwise obtains possession of a female under the age of eighteen years shall, until the contrary is proved, be presumed to have obtained possession of such female with the intent that she shall be used for the purpose of prostitution.]” (Mishra) (Ranchhoddas)

IS PROSTITUTION BEING A DEAL AS RELATION WITH RAPE CASES REDUCTION?

If we come through the point that prostitution reduces rape cases then in my view this statement is somehow correct, if a man with brute sexual desire wants to fulfil his urge of sex with the opposite gender then they can fulfil it with them who can easily offer her body so somehow prostitution can be a good option in this in a way that one gender is taking its requirement {money} and other is

fulfilling his desire. It Shows that prostitution reduces attempted rape, at the expense of raising completed and outdoor rape.

Defenders of sanctioning prostitution trust it would diminish crime, improve general wellbeing, increment charge income, help individuals out of destitution, get prostitutes off the roads, and permit consenting grown-ups to settle on their own decisions. They fight that prostitution is a harmless crime, particularly in the 10 Nevada countries where it stays lawful. To the extent legitimizing prostitution in concerned it is now legitimate in India.

In India, prostitution (the trading of sexual administrations for money) isn't illicit, yet various related exercises, incorporating requesting in a public spot, kerb slithering, owning or dealing with a house of ill-repute, pimping and pandering, are crimes.

For today's youth, it has become very important to gain the information, skills and motivation to make healthy decisions about sex and sexuality throughout their lives. As we all are aware of increasing percentage of rape cases all over the countries. The government of all the countries should pay serious attention towards it and must make some rules and laws to educate children about sex at a particular period of age covering topics in a logical sequence.

According to our society, the word 'prostitution' has a bad impact on our culture and country. If we come through the point that prostitution reduces rape cases then in our view this statement is somehow correct, if a man with brute sexual desire wants to fulfil his urge of sex with the opposite gender then they can fulfil it with them who can easily offer her body so somehow prostitution can be a good option in this in a way that one gender is taking its requirement {money} and other is fulfilling his desire. It Shows that prostitution reduces attempted rape, at the expense of raising completed and outdoor rape.

SEX EDUCATION

There may be this point that legalizing porn or prostitution can decrease rapes but not control it. Sex education is also an important thing we should teach our children when they reach a certain age it's a topic which we ignore because of society. In India, while discussing sex education, much accentuation is given on young pregnancy and HIV/AIDS contamination. It has frequently been

seen that there is an absence of mindfulness concerning 'homosexuality' yet additionally 'feminine cycle'. Notwithstanding having conversations around high school pregnancy, there is likewise an absence of mindfulness around safe sex.

CONCLUSION

In the above notes, we infer that prostitution ought to be legitimize on a greater stage. As it was said that someplace in the public arena individuals judge and see prostitution in an incorrect manner, despite the fact that the facts demonstrate that the method of seeing and thinking vary from individual to individual, yet as we see above prostitution as its own legitimized stars which prompts a decent settlement. here we as a whole realize everything has its own upsides and downsides however it doesn't mean we can disregard or eradicate the picture and perspectives by judging its topic.

Above it is very much said that prostitution can be managed as a decrease in assault cases in light of the fact that here it is going two-way measure

1. One's sexual desire, needs are satisfied – an individual who giving services are getting paid in return.
2. While one's needs are getting satisfied then they are not holding inclination outside the boundaries here possibilities are diminished not clearing out on their hand entire cycle can prompt a decrease in the assault of ladies, youngster or babies

In our view, the fundamental spotlight is on that nobody can endure or nobody can harm anyone in any sense. Prostitution is lawful in India however not as in entire, so it ought to sanction on a greater stage with some genuine and defended limitation like

1. Pimping
2. Sale of body
3. Trafficking of human

4. Brothel

Since prostitution is additionally a kind of calling from Veda's time frame and article 19 proviso (1) (g) of the constitution of India expresses that individual has the option to rehearse any calling or to continue any occupation exchange or business.

Hereto assent or one's will do make a difference. without assent, one individual cannot hold another to accomplish something which he/she would not like to do. In the event that this occurs, at that point, it is called as an offense or wrongdoing which would be invalid and void.

Thus, Prostitution would be illicit and not advocated if an individual's assent or eagerness isn't there which can lead to violations of said following: -

1. Trafficking of human
2. Slaves
3. Pimping
4. Sale (body, body part)

Above given words are brutal, not legitimate that is the reason they are crime and Hence unlawful in calling of prostitution.
